Athens, Monday October 14th, 2022

We are pleased to announce the Laboratory's research collaboration with the group Digital Humanities+ of the SIB Swiss Institute of Bioinformatics at Lausanne, Switzerland. This research collaboration is based on the Swiss National Science Foundation five-year project MARK16, focused on the Gospel of Mark, Chapter 16th and related manuscripts (see <https://mark16.sib.swiss/>).

The collaboration between the MARK16 project and the MDRS Laboratory has been announced on the SNSF database (<https://data.snf.ch/grants/grant/179755>), as well as on the research blog of the group (<https://claireclivaz.hypotheses.org/4155>).

Our first common activity happened during October 3-7, 2022. Our Laboratory has received Dr. Mina Monier, post-doc of the MARK16 project. We provided him with a training session in the Byzantine and Christian Museum of Athens, the National Archaeological Museum of Athens, as well as in the National Library of Greece at Stavros Niarchos Foundation Cultural Center, Athens.

We would like to express our sincere thanks and appreciation to Dr. Claire Clivaz, Head of Digital Humanities+, and we are looking forward to strengthening our research collaborations.

Prof. George Filias, Director

Ass. Prof. Athanasios Antonopoulos, Laboratory's Coordinator, Director of Research Programs
